In lieu of our regular agenda, the WEAC will be engaged in a field trip to Steve Schultz's home at 126 N. Cayuga Rd. Steve's house was built and modified to be energy efficient and he and his wife Sarah have agreed to host our meeting so that they can demonstrate the efficiencies installed which will assist us in better understanding the options that are available when we make recommendations that are energy related as well as recycling. Steve indicated he would also invite the builder to field any questions we may have. See you there.
